**We look  
forward to  
seeing you!**

# Professional teaching in a caring environment

**Children experience their day-care and family environments as different worlds. The all-day framework enables the child to spend the day with children and carers whom they know and trust. The partnership between you, as parents, and our expert staff, forms the foundation for the well-being of your child.**

kids & co daycare centres are places in which children can develop and thrive in

accordance with their particular needs. These are met in infants and toddlers alike with a conscious approach and careful observation. With infants, special attention is paid to ensuring that they feel happy and secure. kids & co daycare centres offer a caring and rewarding environment for your child.

*kids & co is a byword for quality*

With our own pedagogical concept, we support and encourage early learning, giving children the confidence to explore the world for themselves, to be active, to find out, to question, to observe and to communicate. And all in a stimulating learning environment.

- elmar
- infans
- Purzelbaum
- Nature & Environment

The kids & co pedagogical concept provides the basis for day-to-day work with the children. Our various centres also pursue appropriate projects and educational strategies which focus both on supporting individual learning, and on group-based teaching. The projects and approaches of our individual kids & co daycare centres can be found on our website.

### *Healthy diet and movement*

kids & co daycare centres are regarded as nutrition-conscious and movement-friendly daycare centres. Confirmed by Prävention & Gesundheitsförderung Kanton Zürich. Our meal plans are based on this concept as well as the recommendations of the «Purzelbaum Kita» scheme of the city of Zurich which encourage physical activity in young children. Our staff also receives regular training from experts in this area.

### *Quality control by subject experts*

Our specialist staff deepens resource-oriented into various areas of responsibility for childcare and brings this know-how across kids & co. On the

one hand, this ensures that all aspects of quality are always in focus, on the other hand, employees can continue to develop in a sound manner and are motivated to take responsibility for their areas.

### *Parents have their say*

Good cooperation and an open exchange with parents are very important to us. With parents' evenings, events with the children and festivals, we promote the regular exchange between our employees and parents and lay a solid basis for value and trust.

---

*We live our values:  
Trustworthy, profes-  
sional, sustainable  
and healthy.*

Cornelia Peltenburg,  
Managing Director profawo Zurich
